eProvided provides a complete reformatting of your card & a comprehensive diagnostic examination; restoring it to like-new condition. First, we perform a complete Diagnostic scan on your media card, testing for erroneous memory blocks or other troubles. Then, we use a wiper program to zero out all data on your card. Third, we perform a "Scandisk" check & a low-level Digital-Memory Format formatting all card sectors while repairing any/all errors. Last but not least; Full Diagnostics, read/write block-data test, to assure the card is performing flawlessly. eProvided's lifetime recovery option would provide free lifetime recovery for this particular card. If your card were to fail again for any reason, simply send it to eProvided.com for a FREE no questions asked file recovery service!
